# BH55R Heavy Duty Breaker

Ideal for the demolition of paths and roads, the Heavy Duty Breaker features low vibration technology without compromising its solid performance. With just a few components and easy accessibility, the BH55R is easily maintained, minimising down time. The breaker features a catalytic converter helping to reduce hydrocarbon emissions by 75% and CO by 50%.

## Features and Benefits

- Low vibration technology
- Easy access to components for maintenance
- Lightweight and easy to handle

Product Code 11/0540

## Technical Specification

Fuel	2 Stroke
Fuel Tank Capacity (ltr)	1.8
Fuel Consumption (ltr/hr)	0.9
Vibration Reading (m/s <sup>2</sup> )	12
Decibel Reading dB(A)	108
Weight (kg)	23

## Green Option Credentials\*

Carbon Saving (kgCO <sub>2</sub> E)	0.80
Cost Saving	£0.38
Energy Saving	25%

\*Per Hour
