

AS50 Battery Rammer

Energy Efficient

Resource Efficient

Pollution Prevention

Nuisance Avoidance

The emission free, battery powered AS50 rammer provides protection to both the user and the environment while not compromising on compaction levels. Designed to work in poorly ventilated or sensitive areas, the AS50 is 100% emission free through its L-ion powered battery, which also reduces operating costs by 55% versus petrol powered machines yet still offers the same performance levels. The other benefits realised by using a battery rammers is the freedom of movement with a cable free environment and low HAV rating meaning longer operating times.

Technical Specification

Description	AS50
Percussion Rate (blows/min)	680
Battery Run Time (h)	0.3
Capacity (Ah)	12
Weight (kg)	70

Features and Benefits

- 100% emission-free work
- 55% lower operating costs
- Low HAV reading
- Maintenance free electric motor
- Li-Ion battery

Green Option Credentials*

Carbon Saving (kg CO2E)	2.39
Cost Saving	£0.99
Energy Saving	94%

*Per Hire Day

Product Code 18/0175
