BV77E Indirect Diesel Heater

The BV77E is an industrial forced high air flow diesel heater. Strong and long lasting construction with housing that remains cool to the touch. Suitable for use in areas with limited ventilation as indirect heaters do not add moisture to the air. Indirect heaters can be ducted which allows them to be placed outside the area to be warmed.

Features and Benefits

- Provides heat in areas with limited ventilation
- Easy to transport
- Remains cool to touch
- Does not add moisture to the air

Product Code 20/0121

Technical Specification

Heat Output (BTU/hr)	68,000
Fuel Consumption (kg/hr)	1.67
Displacement (m ³ /hr)	1.550
Power Supply (v)	110
Running Time (hr)	18
Weight (kg)	61

Green Option Credentials*

Carbon Saving (kgCO ₂ E)	0.81
Cost Saving	£0.28
Energy Saving	15%

*Per Hour
