

Energy Efficient

Resource Efficient

HiLight B+ Cube Light

The brightest in luminosity, the ultimate in efficiency.

Four high-luminosity LED floodlights extend to a maximum height of 8m and rotates 340°, so you can keep working safely after the sun goes down.

Features and Benefits

- Safe Mast**
 The hydraulic vertical mast is extremely stable and quick to operate, extending to a maximum height of 8m and rotating 340°
- Easy to Transport**
 22 units can be placed on a single truck due to the small footprint, reducing transport costs. Galvanised forklift pockets and a lifting beam facilitate easy on-site movement
- Low Running Costs**
 Thanks to the time-saving remote start functionality that eliminates the need for personnel to be sent to the worksite
- Low Fuel Consumption**
 Compact 1500rpm engine. The large fuel tank ensures fuel autonomy of 260 hours
- Reduced Maintenance Costs**
- Four high-luminosity LED Floodlights**
